Education

M.S. in Computer Science (Cyber security) at Boston University *Boston, USA*
B.Tech. in Computer Science Engineering at Vellore Institute of Technology *Vellore, India*

Professional Experience

Seceon Inc. — **Member of Technical Staff** *Westford, Massachusetts* *Feb 2026 – Present*

- Implemented and maintained a network monitoring solution to track endpoints, monitor internal network, device fingerprinting and analyze system utilization data for improved visibility and asset management.
- Performed SOC operations including real-time alert monitoring, triage, and incident resolution; escalated critical threats and contributed to incident response (IR) workflows and playbook development for security events.
- Collaborated with cross-functional teams to support customer on-boarding and troubleshooting platform-related issues. Tested new Seceon Open Threat Management (OTM) platform features for bugs.
- Remediated 30+ critical severity CVEs across multiple company products, hardening platform security and reducing exposure to known exploits.
- Overhauled company backup processes and authored 2 new scripts while refactoring 4 existing ones to automate secure daily backups across 20+ servers, validating data reproducibility through restoration testing.

Seceon Inc. — **Cybersecurity Analyst Intern** *Westford, Massachusetts* *Jun 2024 – Aug 2024*

- Created six comprehensive knowledge base articles for the Seceon platform and designed chatbot integrations, resolving over 50 customer support inquiries weekly and freeing up staff.
- Implemented RESTful API utilizing Python and Flask improving application performance and user experience.

Tavant Technologies — **Information Security Analyst** *Noida, India* *Dec 2020 – Aug 2022*

- Deployed and optimized Qualys, Mimecast, CrowdStrike, and Netskope across 500+ endpoints, cutting vulnerability remediation time by 25%.
- Led cross-functional phishing awareness program by coordinating IT and HR teams; reduced click-through by 18% and trained 200+ employees.
- Built Python-based automated reporting for compliance tracking, reducing audit preparation time by 25%.
- Coordinated ISO 27001 internal/external audits; improved audit readiness with zero major nonconformities.

Symantec/Broadcom — **Undergraduate Intern** *Mumbai, India* *Jun 2019 – Jul 2019*

- Completed 5 advanced Symantec cybersecurity certification courses focused on email security and data loss prevention, enhancing skills in mitigating threats across diverse platforms and technologies.
- As the sole intern on the team, conducted a comprehensive review of existing infrastructure documentation, updating outdated materials and policies that saved senior analysts 1.5 hours per week.

Projects

- **Log4j Vulnerability Scanner (CVE-2021-44228):** Spearheaded the design of a Log4j Vulnerability scanner that detected susceptibility on test servers with simulated vulnerabilities.
- **Malware Detection using Machine Learning:** Trained a classifier achieving upwards of 90% detection accuracy on malicious executables (features included MD5, entropy).
- **Data Loss Prevention using ML:** Developed a web application incorporating integrated defenses against SQLi attacks, including encryption, session timeouts configured to 30 minutes, and robust brute-force protection protocols.

Certifications

- AWS Certified Security (SCS-CO3) *Jan 2026*
- Associate of $(ISC)^2$ – Certified Information Systems Security Professional (CISSP) *Jun 2025*
- CompTIA Security+ *Dec 2024*

Core Competencies

- **Security Operations Center (SOC) & Threat Management:** SIEM, SOAR, Incident Response, Endpoint Security (EDR), Log Analysis, DLP, Identity Access Management (IAM), Risk Management, GRC
- **Vulnerability & Risk Management:** Vulnerability Assessment, Patch & Risk Management, Root Cause & Trend Analysis, Automated Reporting (Microsoft Office, Excel, PowerPoint)

- **Security Tools & Platforms:** Qualys, CrowdStrike, Netskope, Mimecast, Burp Suite, Splunk, Docker, Wireshark, NMAP, Metasploit
- **Network & Cloud Security:** AWS (GuardDuty, CloudFormation), SaaS / PaaS / IaaS Security, CASB (Netskope, Symantec), DLP, TCP/IP, SSL/TLS, DNS, Firewall, IDS/IPS, VPN/IPSec, VLAN, DHCP, WAN, HTTP
- **Programming & Automation:** Python, Java, Bash, PowerShell, SQL, JavaScript, JSON
- **Governance & Compliance Frameworks:** ISO 27001, NIST, PCI DSS, FedRAMP, HIPAA, GDPR, COBIT, CSF, GLBA
- **Operating Systems:** Windows, Linux Mac OS

Awards & Achievements

- **1st Place - NCAE Cybergames Regional (CTF):** Part of the university team that came first out of 90 + teams in the regionals; qualified for the nationals in Florida (5th overall).
- **Performance Award - Tavant Technologies:** Recognized for contributions to the Information Security team.
